#### Graphic Designer – Freelance (2020 - 2022)

- Created brand identities, logos, and visual content.
- Gained strong understanding of UI/UX principles and design tools.

### PROJECTS

#### *Swan And Sparkle*

A cleaning service platform that lets users estimate costs, book services, and track cleaning status. It features separate dashboards for users, workers, and admins, where admins assign workers, workers update job status with proof images, and admins manage all platform operations.

*Frontend:* React.js, (Vite + Typescript), Tailwind CSS, TanStack Query

*Backend:* Node.js, Express.js, PostgreSQL, Nodemailer, Joi, Multer, Pino Logger

#### *TicketX*

An event ticketing system website that allows users to browse events, book tickets online, and manage their bookings, with dedicated dashboards for organizers and admins to manage events, sales, and attendees.

*Frontend:* Next.js, Typescript, Tailwind CSS, Axios

*Backend:* Node.js, Express.js, MongoDB, Mongoose
